ABOUT ME

Good command of **English** (B2). I can understand the language almost perfectly, whether it is written or spoken.

My conversational level is intermediate.

I'm a fast learner and I'm passionate about programming. Thanks to this, I managed to acquire most of my knowledge in a self-taught way.

The technologies that I am most passionate about using are:

- **HTML**,
- **CSS, Tailwind, Sass, styled-components**, among other ways to style,
- **JavaScript (ES6)**, along with **TypeScript**,
- **React.js**, my favorite technology and the one that gives me the most comfort. And its ecosystem, *functional components, react hooks, custom hooks, context api, react router, y reducers, among others.*

Additionally, I have learned:

- **Node.js**, with the **Express.js** framework to build a **REST API**,
- **Next.js** and its different ways to render content,
- **MongoDB** with **Mongoose**,
- **SQL databases** handled by **Prisma ORM**,
- **Git** to version my projects,
- **Figma**, tool with which I made this CV,
- and finally, some **Python, Rust, Java y Ruby**.

EDUCATION

U. T. N. Facultad Regional Villa María

Information Systems Engineering - 3rd year (currently attending)

I. P. E. T. y M. N° 59 "25 de mayo", Cruz Alta

Programming Technician - 2013

WORK EXPERIENCE

Argentine Mail

Situational employee (09/2021 - 11/2021)

COURSES

Ministerio de Desarrollo Productivo de la Nación y la Cámara Empresarial de Software y Servicios Informáticos (CESSI)

#SeProgramar - November 2021

freeCodeCamp.org

Responsive Web Design - July 2021

freeCodeCamp.org

JavaScript Algorithms and Data Structures - July 2021
